and Daniel N. Ronel, MD

March 2009

Frequently the focus of cosmetic improvement is the face. **Yet our hands are one of the most telling signs of age.** The hands can lose firmness and plumpness and begin to look bony and fragile . . . with the protrusion of veins and tendons. The thin crepe-like skin texture often becomes flecked with brown spots from sun exposure and general wear and tear.

Fighting these changes takes more than hand cream.

We have developed a treatment plan to "turn back the sands of time".

The **first** step is to restore the lost volume with FDA-approved Radiesse. Injection of this filler is almost completely painless! It works immediately to give you long lasting correction of wrinkles and folds. Radiesse actually stimulates your body to produce new collagen, helping to hide those veins and tendons.

The **next** step is to address the color changes and sunspots with the Cutera Limelight laser. Treated sunspots usually darken within hours and flake off in 3 - 7 days. What is left behind is your beautiful youthful skin!

The **last** step is to protect your investment with a skin care product the keep the sun away and the moisture in. There are several products to choose from, and you already may be using the right one.

PACKAGE PRICE: \$2000 (includes 2 syringes of Radiesse and 6 Laser treatments, normally \$2500)

EDUCATIONAL EVENT! PRIZES! DISCOUNTS! COME HEAR DR. RONEL'S LECTURE . . .

VIP B BEAUTIFUL LUXURY SALON & SPA EVENT
